# LINING OUT STOCK, CONTINUED:

Response to our recent Bulletin was terrific on our famous Field Grown Liners of Coniferous materials. All Pfitzers, Glaukas, Andorra, Greeks, etc., were exhausted in a very short while. If we should have any left when all orders are filled, we will try to notify you. Meanwhile, we offer below an excellent assortment of Biotas, and only a couple varieties of Juniper. You seem to like the idea of buying these on a row run basis, and so we have made an offer here of Biotas handled in this manner. All have stood a full growing season in our fields, in 42" rows, and have developed into sturdy plants with real character. Orders dug fresh, puddled, and packed in damp sphagnum moss for shipment.
